www.skylarimpex.com

We pack with Care and Concern

Skylar Impex, a leading manufacturer and exporter of a wide array of wooden packing products like Wooden Pallets, Wooden Boxes & Wooden Crates. Located in an industrial belt in Thane, Skylar Impex caters to the growing demand of packing materials from the states of Maharashtra and Gujarat.

Skylar Impex founded in 2010 by Mr. Pradeep Kumar, a core businessman, delivers high quality packing material and an assortment of packing services to a host of companies from the Pharmaceutical, FMCG, Chemical, Automobile, Medical Instrumentation & Heavy Engineering Industries.

Your goods are Priceless !

Packaging is all about perfect control, specially when it comes to critical cargo, customers expect that their goods reach in the perfect condition. At Skylar our staff identify the ideal pallets required as per the application, making them ready to face the ordeals of transport and reach its destination safely.

Pallet Perfect Company

With the rise in demand for packing materials from the companies located in the region of Maharashtra and Gujarat, Skylar manufactures off the shelf as well as customized Wooden Pallets, Wooden Boxes & Wooden Crates required for packing and porting of materials, goods & machinery from one location to another.

Types of Packaging

Industrial Heavy Machine Packaging Boxes & Crates

We at Skylar offer our clients superior quality of wooden boxes which are available in rubber wood, pinewood and other material finishes. The services of experienced industry professionals and well developed infrastructure facilities further help us to bring in them desired customized finishes as per the specific needs of our clients.

Two Way & Four Way Wooden

We offer high quality Two Way Pallets and Four way Pallets which are an ideal choice for packing & transporting material bags, drums and boxes.

Manufactured from hardwood, rubber wood or pinewood as per companies' requirement, these pallets have the facility of getting lifted from two sides or all four sides, which brings further ease in carrying and loading material.

Plywood Boxes

We offer Heavy Machine Packaging Cases which are made from the best quality plywood & wood for support.

Plywood is used for packaging, storage and transportation of heavy mechanical handling equipments including winches and cranes. Their superior construction and innovative designing, permit secure storage of products as well as allow airflow around the entire product.

Fumigation, Heat treatment and AQSE Chemical Treatment

A fumigation and heat treatment process with a certificate is mandatory for any international sea freight shipment. We offer fumigated & heat treated products as per order placed

by our clients. Wooden Pallets, Boxes and Wooden Crates are treated for termite & fungus.

Packaging Accessories

Along with packing services we also stock supplies like Chord Straps, Stretch Wrap Film, H/M Cover, Nylon Straps, Wire Rope, Ratchet & Belts etc.

The Skylar Advantage

At Skylar we offer a range of controlled packaging solutions to clients from FMCG, automotive, tiles/stones/glass manufacturer, cable, wire industries, steel, metal, paper, printing, and chemical industries etc.
